CONGRESS NEAR END OF SESSION

Senate Listens to Number Speeches.

Teller Speaks on Question of Repealing the Desert Land Laws.

Upper House Devotes Day to Consideration of Conference Reports on Various Bills.

ASHINGTNO, April 27.-The attention of the Senate was devoted to the consideration of reports of conference committees, speeches, passage of bills, one removing restriction on sale of Indian lands, to which there was little or no objection and an executive session. The session began at 10 o'clock in the morning and continued until late this evening. Final conference reports on the sundry civil, general deficiency, postoffice and military academy appropriations bills were agreed to without opposition. Speeches were made by Mr. Cullom, Mr. Tayler, on the public land question, and by Mr. McLaurin on the old age pension order and trusts. A resolution authorizing the continuing during the recess of the inquiry into the right of Mr. Smoot to his seat in the Senate was favorably considered dur-

ing the day.

Mr. Teller, in addressing the Senate on the question of repeal of the desert and laws opposed the Gibson bill, saying the friends of that bill generally were found among those who knew least of the subject. Mr. Teller refer-red to the connection of Mr. Maxweil with the agitation for the repeal of the land laws, and expressed the opinion that the gentleman had not any in-

Juence in passing the irrigation act Messrs. Dubois, Warren and Hans-grough volunteered statements to the effect that they had not known of Mr. Maxwell's interest in the irrigation leg-islation as a representative of the rallroads. Reference being made to the saliroad contributions to Mr. Maxwell's fund of \$50,000 a year, Mr. Warren expressed the opinion that it had not been he intention of the railroad managers that the money contributed by them hould be used in the "scandalous man-

ner that it is used."

Mr. Teller said that most of the charges against existing laws have originated in Mr. Maxwell's newspapers and he contended that the failroads would not make such extensive contributions except with a view of enhancing the value of their land. Every step they had taken, he said, had been in the direction of forcing the land seekers to the railroad lands. He denied that Colorado had suffered through the

Mr. Hale presented the conference report on the general deficiency bill, which was agreed to without debate. Mr. Allison presented the report of the onferees on the sundry civil appropria-

In response to a request from Mr. Al-

drich, Mr. Allison made a statement bearing upon the Senate amendment overing the purchase of silver bullion nent had been disagreed to because the provision which it had been proposed to nsert is already law, and there is no imitation on the power of the Secretary of the Treasury to purchase silver bul-

lion for subsidiary coinage.

The conference report on the sundry civil bill was agreed to. A number of minor bills, including the

following, were passed:
Authorizing the Secretary of the Interior to take steps for the preservation of the cliff dwellings and other pre-historic ruins in Colorado and other

At 9.25 p. m. the doors were re-opened and the Senate passed a num-ber of bills, including one ratifying an agreement with the Arapahoe and Shoshone Indians for Shoshone reser-vation lands in Wyoming; also a large number of private pension bills. At 11:02 p. m. the Senate took a recess un-til 10:30 o'clock tomorrow morning.

Call!! It Comes.

Every first-class hotel has Grape-Nuts in the kitchen for guests that WILL HAVE IT.

It is sometimes left off the menu, for it costs something, and the proprietor had rather serve some less known food that is given to him free for the privilege of being named on the menu.

However, if one likes Grape-Nuts predigested food and values the feeling of strong, vigorous life that comes with its use, call and it comes.

SPEECHES INTENDED FOR COMING CAMPAIGN

WASHINGTON. April 27.—In the presence of crowded galleries and of almost a full membership. Messre. Littlefield of Maine and Williams of Mississippi, in the House today, made speeches intended for the coming Presispeeches intended for the coming Presi-dential campaign. The two speakers were wildly applauded by their respec-tive sides, but there was an absence of personalities, such as characterized the clash between Messrs. Dalzell and Cockran. Indeed, the best of humor prevailed.

Mr. Littlefield continually taunted the Democrats with the utterances of Mr. Cockran, and by name called on several of the prominent members of that party in the House to answer "yes" or "no" whether they approved Mr. Cockran's tariff views, and whether they intended

tariff views, and whether they intended going before the people on the issue of free trade. He defended the protective tariff system from every point of view. Mr. Williams, adopting the tactics of Mr. Littlefield, endeavored to force from the Republicans, and from Mr. Littlefield in particular, categorical answers to several questions which he deemed pertinent. Mr. Littlefield answered 'yes' when asked if he approved of everything in the McKinley administration, which enabled Mr. Williams to remind him that he (Littlefield) and Williams had stood together in opposition of colonial establishment. Mr. Williams asserted that the Republicans were going before the people "on licans were going before the people "on the issue borrowed from the gamblers, table of standing pat." The House sat until late in the after-

and then recessed until 9 o'clock

The House disagreed to the Senate amendments to the military academy appropriation bill and asked for a con-

Many conference reports on bills of a minor character were disposed of.
Mr. Hemenway called up the confernce report on the general deficiency

The report was unanimously adopted, and the House then proceeded to the consideration of the conference report on the sundry civil appropriation bill. Following a brief explanation of the bill by Mr. Hemenway, in charge of it, Mr. De Armond (Mo.), attacked the provision of the proposed new building for the use of Senators, which, he said when completed, would be simply "a Senatorial flat, luxuriously furnished." He favored a more modest building, with modest furnishings, "and yet not lacking in those evidences of taste by a devotion to art so dear to the Senatorial heart, and so expensive to the public purse."

Mr. Hemenway explained that the conferees were compelled to accept the

Senate provision, because the Senate insisted that its present office building had been found to be unsafe.

On a rising vote the report was adopted, 140 to 92. The Democrats demanded the yeas and nays, and the roll was called. The report was adopted, 128 to 128.

Mr. Overstreet called up the conference report on the postoffice ap-propriation bill and explained that it was a complete agreement of the confedees. The report said Mr. Moon, (Tenn.), the ranking minority member of the postoffice committee, was in the spirit of compromise. He declared, however, that the appropriation, \$45,000, to the Oceanic Steamship company for carrying the mails to Tahiti, was a pure gift, because of the fact that it cost the Government \$6.50 for every

pound of mail carried to that Island.

When the conference report of the
bill to ratify an agreement with the Shoshone or Wind river Indians in Wy-oming was called up by Mr. Mondell, (Republican, Wyoming), Mr. Fitzgerald, (Democrat, New York), raised a ques-tion of consideration and at the same time made the point of no quorum. The speaker counted a quorum, but the Democrats demanded the yeas and nays and the roll was called for the fourth time during the evening. The vote disclosed the presence of a quorum and that the House had agreed to con-sider the report. Mr. Mondell explained

Mr. Fitzgerald asserted that the reservation was rich in gas and oil and the Secretary of the Inc.

the Secretary of the Inc.

desired to come to Washington and conguit with him before the bill was
passed Somebody, he charged, was
anxious to have the bill rushed through

heard of such riches. The previous question was ordered but without a vote on the passage of the bill, the House, at I o'clock this morning took a recess until 10 30 o'clock today

COCKRAN RESOLUTION NOT PRIVILEGED

WASHINGTON, April 27.—Speaker Cannon ruled today that the Cockran resolution for an investigation of the Dalzell charges that Cockran had cam-paigned for McKinley for "hire" in 1896 as not a privileged matter.

In an elaborate opinion the Speaker said he was warranted in taking ju-dicial knowledge of the fact that the offense set forth was charged against Mr. Cockran, "if committed at all was committed while the gentleman from New York was neither a member nor a member-elect of this House." He read a number of precedents, dating as far as 1796, and said that insofar the House was concerned in but one case had the House assumed to punish a member for acts committed prior to the time he was elected to the House. "The chair," he said, "feels justified in taking cognizance of the affairs that are alleged to be charged constitutes no crime." At most, he said, the only question was one as to the property. question was one as to the propriety of the conduct of a private citizen. The House, he declared, could not rightfully punish if it desired to do so. then ruled "that the chair holds that the resolution may not be entertained as a question of privilege"

Mr. Williams (Mississippl) appealed from the decision of the chair, and Mr. Payne moved to lay the appeal on the tble. Upon this the year and nays Were ordered.

By a party vote, 169 to 125, the Speaker was sustained in his ruling.

CONFERENCE AGREES ON SUNDRY CIVIL BILL

WASHINGTON, April 27.-The conference agreement on the sundry civil appropriation bill reported today clears up all differences between the two

houses on this measure The Senate amendment, providing for in office building for Senators, is retained. In relation to the extension of of cost for the extension and comple-tion of the Capitol building.

The House provision regarding the national home for disabled volunteer soldiers is restored.

The appropriation for the enforcement of the anti-trust laws is made available as proposed by the House, for the fiscal year 1905, instead of until expended, as proposed by the Senate.

EXTRA SESSION SENATE NOT AT ALL LIKELY

WASHINGTON, April 27.-Senatora Allison, Aldrich and Spooner had a conference lasting more than an hour tonight with the President on the situation in Congress, at which the Crum nomination, Panama canal government legislation and other matters, including the suggestion of an extra session of the Senate to consider the Crum nomination, were discussed. All the Senators on leaving the White House said an extra session of the Senate was very unlikely. Senators Allison and Aldrich sald they thought final adjournment

Cleverly Rescued From Savage Dog

Automobile Girl Takes a Hand in a Fight With a Bulldog and Comes Out Victorious.

Special to The Tribune.

DHILADELPHIA. Pa., April 27,-There is one automobilist in this city whom half the young men in town would be willing to lay down and permit her to drive her machine over them.

Her name is not known, but she is young and pretty and drives in a fine yellow car. She is the heroine who rescued a young man from a vicious bulldog that had attacked him, when he went to the owner's home to collect

The young man is James W. Church. The dog had bit him through the right hand and was chewing the blood out of one of his legs, while male pedestrians stood a block away and watched the light. The automobilist drove her car fight. up to the pavement, seized her dainty parasol and leaping out of the car, she jabbed the animal in the ribs and face until it released Church and turned its attention to her

As the dog sprang at the fair girl she rapped him across the nose so vig-orously that he howled from pain and broke away. She then bound up the wounded hand, took Church into her car, and whirled him to a nearby drug store. She refused to give her name, and her heroic rescue has been given columns in the Philadelphia news-

OPERATIONS ON YALU STILL IN THE DARK

ST. PETERSBURG, April 28,-Disappointment prevails in St. Petersburg that no official dispatches giving details of the operations on the Yalu river have yet been made public. The press dispatches are so meagre as to becloud rather than enlighten the people who are hourly awaiting news. The Associated Press has obtained from the general staff the following statement of the situation

"Before beginning the passage of the Yalu, the Japanese evidently completed the concentration of the armies along the river commanded by Gens. Kuroki

of time, commenced the passage of the river, and the Russians realized that it would be impossible to prevent their crossing. The Japanese front extended from Wiju as far as Pick Tong, over eighty miles. We faced the possibility that they would cross at a score of places, and all we could hope was to harrass and impede the crossing, for every day gained enabled us to push our preparations and bring up more

"There are only two instances in history where an army was unable to cross a river-that of Napoleon at Aspern and that of Prince Eugene of Savoy at Lech Both failed because of floods. The Yalu proved no exception floods. to this established rule."

KUROPATKIN HEADS OFF MIKADO'S TROOPS

NEWCHWANG, April 27.-If official Russian advices from Mukden can be relied on, Gen. Kuropatkin's deployment is so far advanced that it cover the very lines the Japanese purpose to occupy. Should the Japanese succeed the very lines the Japanese purpose to occupy. Should the Japanese succeed in driving the Russians north, the Muscovite line of defense will extend from Newchwang to Liao Yang and from Liao Yang to the Yalu river. The Russian Generals profess confidence that the Japanese can make no headway by frontal attacks, while the Russians can cope with the widest flanking operations the Mikado's men are likely to undertake. When these operations begin, say the Muscovites, Kuropatkin's counter strokes will bring down the Japanese scheme of offense like a house of cards. The continued delay on the of cards. The continued delay on the part of the enemy is a great surprise to the Russians.

JAPANESE TROOPS MEET WITH DEFEAT

LIAO YANG, April 27 .- The Japanese roops which crossed the Yalu north of Eultjiou (Tchangdjiou) charged, during the night of April 26-27 the Russian position near Lizavena, a village on the Manchurian bank of the Yalu. They were repulsed, but their loss is

not known. not known.

Two gunboats steamed up the river to the support of the Japanese, when a Russian field battery opened fire upon them, resulting in a duel which lasted for twenty minutes. The Russian fire was too hot, and the gunboats ware forced to steam out of rappe. tained. In relation to the extension of the east front of the Capitol, substitutes to the support of the Japanese, we are provided for House and Senate provisions for a joint commission of three Senators and three Representatives to inquire and report at the next session of congress plans in details and estimates. Two gunboats steamed up the right for the Japanese, we are forced to the Japanese, we are forced to steam out of range,

Ghouls Loot the Livingston Tomb

Desecration Hastens the Death of Well-Known New York Gentleman.

NEW YORK, April 27 .- Carroll Livington, grandson of Henry Livingston and 'Lady Mary" Livingston, and a collateral leacendant of the Chancellor who administered the oath of office to President George Washington, is dend at his home here He was 71 years old. News of the desecration of his uncentors, tomb at Hudson, N. Y. may have hastened his

descration of his ancestors tomo at Hudson, N. Y. may have hastened his death.

Mr. Livingston retired from the banking business many years ago and devoted much time to amateur sports. He won many prizes in live-bird shooting tournaments in France and the United States. Investigation of the vandalism of the tomb of Gen. H. Y. B. Livingston, who died in 1898, leads the officials at Hudson to believe that the sole object of the ghouls was to secure lewels of great value which, according to tradition, were buried with Mrs. Mary Livingston, the General's wife, who died in 1856. It is thought no attempt was made to carry away any of the bodies in the tomb. As yet no arrests have been made, but the officers say they believe they can solve the mystery and punish the criminals. Only one metallic coffin remains intact. The others, which were of wood, appear to have orumbied into dust, together with their contents.

Storles have been current in the river counties for nearly half a century to the effect that Jewels of rare value were buried with Mrs. Livingston at her expressed desire, and it is thought likely these tales excited the cupidity of professional robbers.

Long Document Is Filed in a Court

Remarkable Will Containing Thousands of Words Turns Up in Chicago.

HICAGO, April 27.-Although disposing of an estate valued at only \$75,000 the will of Dr. J. Chester Lyman, who died March 29th, is the longest document filed in the his-

tory of the Cooke County Probate court The instrument goes into minute detalls, describing each article owned by the testator, its origin, its history and its present whereabouts. The will con-tains so many thousands of words that it was reproduced in printed form and In this shape It was filed in the Probate court, together with the original document.
Dr. Lyman was a collector of souve

nirs and some of them are considered

A Washington saucer valued at \$1000 is bequeathed to the Field Columbian museum, as is a Peruvian Image made in bronze. It is said to be 4000 years old and was recovered from an ancient mound in the Ander. Another valuable relic is a "constitu-

tional cane." It was made from a piece of wood cut from the United States fri-gate Constitution on an evening in 1533. gate Constitution on an evening in 1833, when "Old Ironsides" sailed into Boston harbor for the first overhauling after the war of 1812. Another came was made from a piece of wood taken from the man-of-war Kearsarge in 1872. Both cames are bequeathed to the army and navy museum at Washington. and navy museum at Washington.

No Settlement in Sight.

LOUISVILLE, Ky., April 27.-As a last resort, the mine operators of the western Kentucky district have sub-mitted to the miners three propositions on the wage question. It is not thought that any will be accepted, and a strike of the 4000 men interested will occur on May 15th.

Men Die in Explosion.

PITTSBURG, April 27.—Engine No. 2200 of the Baitimore & Onlo railroad, ensibuound exploded today while passing Teath street, Braddock. Three men were fatally injured, three others dangerously hurt and five buildings were wrecked. Two of the houses caught fire and were destroyed. The cause of the explosion has not been ascertained.

BLOOD CELLS.

Man is a millionaire many times over in the possession of blood cells. Woman is

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal number of red blood cells in adult men is five million, in women four and a half million, to the square millimeter. The normal cell is not absolutely round in health, but, in disease, becomes extremely irregular in shape. Every one can be in perfect health and possess the millions of rich red blood corpuscles if they only know how to go about it. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., advises every man and woman to prepare for a long life by observing nature's laws. In the first place, if your digestion is faulty, and the food you eat is not taken up by the blood and assimilated properly, you need a tonic and digestive corrector, something that will increase the red blood corpuscles; he believes in going about this in nature's own way. Years ago, in his active practice, he found that an alterative extract of certain herbs and roots, put up without the use of alcohol would out the liver large and secret series. that an alterative extract of certain herbs and roots, put up without the use of alcohol, would put the liver, lungs and heart into fuller and more complete action. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten, it nourishes the blood, and, instead of the ill-shaped corpuscles, the person's blood takes on a rich red color and the corpuscles are more nearly rotated. sons blood tages on a rich red color and the corpuscles are more nearly tound. Nervousness is only the cry of the starved nerves for food, and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and feels refreshed in the morning.

KNOWLEDGE IS FOWER.

If you want to know about your body, read Dr. Pierce's Common Sense Medical Adviser, which can be had for the cost of mailing, 31 cents in one-cent stamps for the cloth-bound book, or 21 stamps for the paper-covered volume. 1003 pages. Ad-dress Dr. R. V. Pierce, Buffalo, N. Y.

Marsh Hill, Pa.

There comes a time to both men and women when sickness and poor health bring anxiety and trouble hard to bear; disappointment seems to follow every effort of physicians in our behalf, and remedies we try have little or no effect. In many such cases serious mistakes are made in doctoring, and not knowing what the disease is or what makes us sick. Kind nature warns us by certain symptoms which are unmistakable evidence of danger, such as too frequent desire to urinate, scanty supply, scald-ing irritation, pain or dull ache in the back—they tell us in silence that our
